In response to comments filed 11/18/04, regarding the reason for allowance, MPEP 2111.01 states "where an explicit definition is provided by the applicant for a term, that definition will control interpretation of the term as it is used in the claim. *Toro Co. v. White Consolidated Industries Inc.*, 199 F.3d 1295, 1301, 53 USPQ2d 1065, 1069 (Fed. Cir. 1999) (meaning of words used in a claim is not construed in a "lexicographic vacuum, but in the context of the specification and drawings")".

REASONS FOR ALLOWANCE

The following is an Examiner's statement of reasons for allowance: Claims 43-80 are considered allowable since when reading the claims in light of the specification, as per In re Sneed, 710 F.2d 1544, 1548, 218 USPQ 385, 388 (Fed. Cir. 1983), none of the references of record alone or in combination disclose or suggest the combination of limitations specified in the independent claims including using a physical layer (PHY), a MAC layer, and an RLC layer wherein the MAC layer receives multicast control data from the RLC through logical control channel(s), and multicast data being provided through at least one transport channel, as specified in claim 43.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
